Pursuant to the Court's April 4, 2019 Order, ECF No. 104, and the Sixth Circuit's July 23, 2019 Order, 6th Cir. ECF No. 20-2, Defendant respectfully submits the following status report, informing the Court of SSA's progress in completing the windfall-offset recalculations for the Class.

Recalculations are in progress for all class members.¹ As of January 15, 2020, 0 cases are awaiting quality review after completion of Part 1.² An additional 82,494 cases are being processed in Part 1. There are 0 cases awaiting quality review after completion of Part 2. An additional 4,947 cases are being processed in Part 2. Finally, 3,914 cases are being processed in

¹ Four of the 129,695 class members were found to be duplicates, so the total class number is 129,691 individuals.

² The windfall-offset recalculation is completed in three distinct phases, requiring coordination between agency field offices and processing centers. The steps required for Part 1 of the recalculation are set forth in Janet Walker's February 21, 2019 declaration in paragraphs 15 through 20; Part 2 is explained in paragraphs 21 through 29; and Part 3 of the recalculation process is expounded in paragraphs 30 through 41. *See* ECF No. 96-2. The quality review process is also described in paragraph 9 of Janet Walker's April 2, 2019 declaration. *See* ECF No. 102-1.

Part 3.

As of January 15, 2020, SSA has completed³ 38,336 recalculations. Of those 38,336 recalculations, underpayments were due in 20,808 cases, totaling approximately \$30,900,000 prior to withholding for payment of class counsel's fee. The highest underpayment was \$53,894.34. No underpayments were due in 15,951 cases. One thousand, three hundred and five overpayments have been assessed.

Additionally, in the course of performing recalculations, SSA has determined that a small number of putative class members it identified in 2018 are not subject to the harm that is the basis of this suit because they are not owed a windfall-offset recalculation. Specifically, these individuals do not have a concurrent benefits period and/or do not have a corresponding attorneys' fee, meaning that no recalculation is due. SSA has thus far identified an estimated 272 individuals who fit this description. Individuals who are not owed a windfall-offset recalculation will nonetheless receive a notice stating that no recalculation is due.

³ Because fees for class counsel have not yet been determined, "completed" in this context refers to the completion of the recalculation and the issuance of any underpayment, if due, while withholding 20% of the underpayment for payment of potential attorney fees. However, in cases in which the class member is deceased, incarcerated, or otherwise not able to receive the underpayment due, the agency has calculated the underpayment and withheld 20% for potential attorney fees, but may not have released a payment pending identification of an individual eligible to receive the payment.
